To Whom It May Concern:

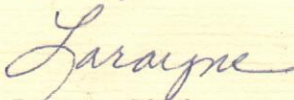

I would like to thank and recommend ANDY'S CLEANING SERVICE for their very professional service and as well as their reliability in performance of all service requests.

Andy's have been employed here for the past six months, and has always been more than receptive to meeting our varying needs. Along with the good service, we appreciate the genuine concern and attention to details.

Andy's work is of the highest quality and the service is above what is required.

Please feel free to call if you have any questions.

Sincerely,

Lorayne Glazier  
Manager
